

# **GAMREE Academy Online Computer Science Instructor (Part-time / Remote Work)**

## **Job Description**

GAMREE Academy is an ed-tech startup lead by Stanford/USF Computer Science Instructor, bringing coding and skills to enhance logical development and critical thinking to students with age group 6+ across the globe.

We currently have students from USA and India, and will shortly be spanning in Canada as well.

We're looking for online teachers. You will be working remotely, teaching kids to Code from the comfort of your home via live-streaming audio / video / screensharing.

Earn up to 60k per month. Flexible hours / commitment. Certification provided! You'll become a guru in App Development, Web Development, AI and several programming languages like Python, C++, Java etc. as you teach it to kids. Strong communication skills and affinity to learn coding required -- either via your job, degree, or hobby.

## **Roles & Responsibilities**

You'll be teaching coding to kids age 6+ via LIVE online classes, either 1-on-1 or in small groups. This means you can teach remotely, from the comfort of home, and at times that work best for your schedule.

We will give you curriculum and projects to teach across topics like Android App Development, Website Development, AI, C++, Python, Java, or simple blocks-based / visual programming for younger kids. We'll train you on the curriculum before you start teaching.

Want to make a dent in the education sector? Come join us, get trained by Stanford and USF Instructor and make a difference to thousands of students worldwide.

## **Job Requirements**

- Patience, empathy, and a strong teacher personality; past teaching experience is ideal
- Coding background experience, either via your job, your college degree, or your hobby
- You like kids (primary, middle, high school)
- Strong WIFI access: > 20 Mbps
- A laptop with a clear webcam

## Stipend & Compensation Range

- This role is completely based on profit share.

For experience add the following languages as well:

1. Logo Programming
2. Java
3. C++
4. Logo Programming

Also add a place where person can add their resume and picture.
